A paramedic has completed the highest level of training in EMS. These personnel have extensive training in advanced life support, including IV therapy, administering drugs, cardiac monitoring, inserting advanced airways, manual defibrillation, and other advanced assessment and treatment skills. Many worksheets require student participation by containing various types of questions such as multiple choice, fill in the blank, short answer, and matching. Other worksheets provide an outline of the day’s lessons or instructions for an upcoming activity.

Irritator was a spinosaurid dinosaur that lived in what is now Brazil about 110 million years ago during the early Cretaceous. It is known from a nearly complete skull found in the Romualdo Formation of the Araripe Basin. The genus name reflects the irritation of paleontologists who found that the skull had been heavily damaged and altered by collectors. Estimated at between 6 and 8 meters, to the teacher, American history, the early years to 1877 guided reading activities provides help for students who have difficulty comprehending the student text or would benefit from a review of the material.
